Registrar in Dermatology – Job Description

Department: Paediatric Dermatology at Children's Health Ireland (CHI)

Salary Scale: Basic salary will be applied in line with approved HSE salary scales. Incremental credit will be awarded in accordance with the revised HSE framework for the application of increment credit

Who We Are: At CHI, we are dedicated to clinical excellence and delivering world-class care to our patients and their families. Our mission is to provide child-centred, research-led, and learning-informed healthcare that upholds the highest standards of safety and excellence. We achieve this by working collaboratively with children, young people, their families, and healthcare professionals across our network of children's services in Ireland.

The Dermatology Department at CHI offers both inpatient and outpatient care for children with skin problems in locations at Crumlin, Tallaght and Temple Street. We provide tertiary services for children with rare and complex skin problems and are a European Reference Network centre for rare skin diseases and vascular anomalies.

Principal Duties and Responsibilities:

The post holder will:

- Be responsible for assessment, diagnosis, planning, implementation and evaluation of treatment for patients according to professional standards and under the supervision of the Consultant
- Document all assessments, diagnoses, treatments, clinical notes, relevant contacts and summaries in accordance with department and professional standards
- Communicate results of assessments and recommendations to the patient and relevant others as appropriate
- Foster close working relationships with colleagues and other relevant professionals in maximising the patient's potential
- Participate in teams, communicating and working in collaboration with the patient and other team members as part of an integrated package of care
- Attend clinics and participate in relevant meetings, case conferences and ward rounds; followed by documentation of findings on each patient's chart; follow through with actions arising from the round
- Contribute to the development and implementation of procedures, policies and guidelines while adhering to existing standards and protocols
- Maintain professional standards in relation to confidentiality, ethics and legislation
- Seek advice and assistance from the Consultant with any assigned cases or issues that prove to be beyond the scope of their professional competence in line with principles of best practice and clinical governance

Eligibility Criteria & Qualifications:

Essential

- Must hold General Registration or Trainee Specialist Division Registration with the Irish Medical Council
- Core requirements for this post include: a demonstrable commitment to Dermatology, good decision making, a broad clinical knowledge base and appropriate clinical skills, awareness of patient safety and risk management issues and the ability to work efficiently under pressure and as part of a team.

Desirable

- Applicants are expected to have completed BST in General Medicine or Paediatrics
- Possession of a post-graduate qualification such as MRCPI or MRCPI in Paediatrics, will be advantageous, but is not a requirement for the post.

Candidate Skills & Competencies:

- Sufficient command of the English language to effectively carry out the duties and responsibilities of the role
- Sufficient clinical knowledge and evidence-based practice to carry out the duties and responsibilities of the role
- An ability to apply knowledge to evidence-based practice
- Leadership potential
- The ability to plan and deliver care in an effective and resourceful manner
- An ability to manage and develop self in a busy working environment
- The ability to evaluate clinical information and make appropriate decisions
- A commitment to assuring high standards and strive for a patient centred service
- Work as part of a team and respect the views and suggestion of others
- Effective communication and interpersonal skills including the ability to collaborate with colleagues, families etc and good presentation skills
- Awareness and appreciation of the patient and the ability to empathise with and treat others with dignity and respect
